

Project title: Creator's Blog

Abstract

Creator's Blog is a social networking area to facilitate interaction and collaboration with the users by allowing them to share their thoughts, ideas and suggestions. Here Authors can share their posts and comments about various trending topics as long as it is considered appropriate. Author's can easily find like minded people through their interactions which can broaden their mind and creativity. Creator's Blog can also be considered a good learning area where various informations are shared.
